

PEDICURES

CLASSIC | 40

Relax while we trim, shape, and clean your cuticles away. This pedicure also comes with a light callus smoothing, and massage using our moisturizing lotion.

DELUXE | 60

Delight in this deluxe pedi which includes callus smoothing, leg massage, exfoliation, plus the added benefits of a deep dermal wrap for some great moisture!

PREMIUM | 70

This pedicure not only includes callus smoothing, leg massage, exfoliation and dermal foot wrap but adds a stimulating mask that is painted onto your legs as your feet are detailed & smoothed. You'll be feeling revived & renewed.

ON THE GO | 30

Need a pedicure but short on time? Allow us to speed you out and refresh your toes with this mini pedicure. Relax while we cut, shape, clean your cuticles, moisturize, polish your toes, and send you on your way. This pedicure does NOT include callus work or massage.

PRINCESS | 24

(children 12 under)
In this royal treatment, the Princess' toes are trimmed & shaped. After a shimmering lotion is applied, her tootsies will be polished in a color of her choice and her two big toes will be adorned with nail art. She is sure to be pleased.

ALOE-GATOR | 65

A pedicure designed to address dry callused heels in need of intensive treatment. Your calluses are thoroughly smoothed away then intensively moisturized with heel cream and dermal wrap. Next, aloe vera is spread on your legs to aid the repair of dry, cracked skin. This pedicure is finished with a nice shoulder massage as your feet are wrapped in warm boots!

MANGO | 72

Revive and Rejuvenate your dry tired skin with a moisture rich detoxifying mask painted on from knees to ankles followed with exfoliation. Furthering your luxurious treat is shea butter which restores the barrier between your skin and the outside environment and reduces risk of dryness. This pedicure is completed with a deep dermal wrap and shoulder massage!

MILK AND HONEY | 75

Cleopatra's secret to soft silky skin is no secret. A colloidal oatmeal mask is the secret to this pedicure, it functions as a moisturizer, skin soother, and protective anti-inflammatory agent. Enjoy a relaxing shoulder massage while your feet are nourished and exfoliated and finished with a deep dermal wrap to really lock in the moisture.

SPORTS | 70

For the athlete in you, this pedicure improves foot health while relieving soreness so you can relax as we revive your tired achy feet. A cooling eucalyptus mask will be brushed on from your knees to ankles, increasing blood circulation for a quicker recovery of sore muscles. To lock in moisture, heel cream and a deep dermal wrap will be brushed on both your feet and gently wrapped in warm boots to end. This pedicure is completed with an extended massage that will leave you feeling AAAAHHHHHH!!!

!!~ We want to provide you with quality services and pair you with the right specialist. Please inform us of any concerns or medical needs you may have ~!!

MANI PEDI AT THE ISLE

MANICURES

CLASSIC | 26

Includes nail shaping, cuticle cleaning, and a light hand massage with a lavender hand protection creme and zinc oxide that will soothe your hands and calm your skin as it protects it from damages of the sun and environment.

MILK AND HONEY | 34

Unveil the radiance of your hands and escape to the land of milk & honey. We start off with a classic mani, next your hands are exfoliated to softly remove dead skin cells. Lastly they are rinsed off with a moisturizing milk bath. A milk & honey creme will restore moisture while you relax with a hand massage!

GEL/SHELLAC | 50

Want a longer lasting manicure? Add a gel polish to our Classic Manicure above for a lasting shiny finish! Once it's set and done you're all dry and absolutely no worries of smudging. Pick your color from our wide selection of hundreds of colors from SHELLAC, OPI, and more.

PRINCESS | 12

(children 12 under)
Your highness' nails will be cut, shaped, and trimmed. A shimmering lotion is then applied followed by a color of her choice. She will be delighted as her thumbs are graced with nail art to end.

ALMOND MILK BATH | 40

Exhale. Escape. Relax. Designed to strengthen nails & focus on cuticle detailing. Hands are first nourished in a warm soak blended with almond oil, jojoba oil & vitamin E that transforms into a moisturizing milk bath. Hands will be trimmed, shaped, & cuticles will be meticulously detailed. They will be exfoliated to remove dead skin cells while paraffin treatment locks

ANTI AGING | 40

Turn back the hands of time with this ultra intense hydrating treatment. Hands are painted with a deep dermal transforming wrap infused with a cocktail of antioxidants that will aid in the regeneration of skin's appearance, reducing fine lines and wrinkles. To follow is a creme infused massage that will leave your hands silky soft inside and out.

BACK TO BASICS | 45

Whether you need a break or just tired of wearing your artificial nails, allow us to gently remove your enhancements and recondition your nails as you transition them back to their natural state. After removal, hands will be manicured, rehydrated with a paraffin wrap, protected with an environmental hand protection creme, and nails fortified with a nail growth stimulator to aid in the recovery. We will send you home with your own bottle of nail strengthen for continued home maintenance.

MANI PEDI AT THE ISLE

Why the waterless pedicure is better for you

CLEANEST

It's the cleanest and safest process that is approved by doctors. Even though in traditional pedicures the tubs are sanitized before each use, studies have shown that some harmful bacteria and slime persist in some obscure corners.

Your feet aren't coming into contact with the harsh chemicals used to sanitize tubs!

MOST EFFECTIVE WAY TO TARGET CALLUSED AREAS

When your feet have been soaked in water, problem areas can be masked. With the waterless method, techs can easily see and pinpoint areas, such as calluses, that need to be addressed. Thereby providing a more effective pedicure. Trust this process!

ZERO CROSS CONTAMINATION

Zero risk of cross contamination from sharing pedicure basins. According to health and safety protocols 99.9% of pedicure basins are not properly disinfected. Basins must soak in hospital grade disinfectant for a minimum of 10 minutes after each customer.

IDEAL FOR DIABETIC CLIENTS

Dr. recommended for individuals with medical immunity concerns (i.e. diabetics & patients undergoing cancer treatments or other heightened immunodeficiency concerns).

MOST COMFORTABLE

You are in complete comfort as you sit in our state of the art zero gravity chairs. With minimal movement during the service, we guarantee you will be extremely relaxed.

Most clients fall asleep and wake up with soft feet and beautiful toes...the pedicure is just that comfortable!

MOISTURIZED SKIN

Products will absorb better because your feet are not saturated with water. Did you know soaking for too long will strip the skin of its natural oils, making the skin dryer?

Dipping feet in water causes your cuticles to expand!

POLISH LASTS LONGER

During a traditional pedicure the nail absorbs water, expanding and changing shape. Sometimes after the polish has been applied, the nail returns to its original shape and weakens the newly applied nail polish. The waterless process places polish on a nail not misshapen by the absorption of water, making them last longer!

EARTH FRIENDLY

That's right! Waterless saves up to 15 gallons of water per service.

Let's help the environment !! Not only are we saving water we're eliminating all risks from water-borne bacteria!

A WATERLESS CONCEPT SALON
